

Storytelling task:

'A Planet Full of Plastic' by Neal Layton

Choice Boards:

Plastic Pollution

Choice board for strong English learners:

Pick 3 words from the book and write a synonym for each word.	Write three sentences describing the effects of plastic pollution on our planet.	Write an acrostic poem for the word 'POLLUTION'.
List 5 ways we can reduce plastic pollution.	Write a short diary entry describing how plastic pollution makes you feel.	Create a comic strip to show how items 'biodegrade'.
Design a poster to spread awareness about climate change.	Write 4 different sentences using 4 new words you learned from this story.	Do you think you can make a difference to help reduce plastic pollution? How?

Choice board for lower level:

Pick three verbs from this book and write a sentence using them.	Create 5 different hashtags that best summarise the book.	Design and make a bookmark to encourage people to stop polluting.
Write two sentences describing how you felt while reading this book.	Design a t-shirt to spread awareness of plastic pollution.	List three ways you can help reduce plastic pollution.
Write two sentences describing the effects of plastic pollution on our planet.	List 5 things that are made from plastic that you use everyday.	Did you enjoy this book? Why?

GooseChase

Link to game: <https://gsch.se/game/45409eabdabd4c4c80193445bc2ec84b/co-manage/>

1. **Hashtag it out!** -Think of five hashtags that will help spread awareness of the effects of plastic pollution on our planet.
2. **Stand in my Shoes** - Write down any emotions you experienced when learning about the problem of plastic pollution.
3. **Curious Kids!** - Write down three questions you have about climate change or plastic pollution.
4. **Thinking Ahead!** - What effect do you think the plastic pollution will have on our sea animals in the next 100 years? Draw a picture and take a photograph of it!
5. **Reduce, Reuse, Recycle!** - Think of three ways people can reduce the amount of plastic pollution and waste that fills our planet every day. Make a video of your solutions.

Something Creative

1. Fun Fashion!

The children will collect recycled materials such as plastic over the course of a week and bring them into the class. In groups of twos, the children will design and make a hat using the recycled materials they have collected. The class will have a fashion show where the children will model their new and sustainable hats!

2. Plastic Pledge!

As a class, the children will design and create a 'plastic pledge' which contains a list of rules that they have come up with to reduce plastic pollution in the classroom. The children will each sign the pledge and agree to follow the plastic pollution pledge rules to help make a difference and save our planet. The plastic pledge will be displayed in the classroom.
